kaptivo

Simply share your whiteboard with anyone.

Easily installed cloud-connected camera lets you effortlessly share any dry-erase whiteboard during a video conference call.

Turn your whiteboard on.

With over fifty million installed worldwide, dry erase whiteboards are being utilized more than ever for their immediacy, convenience and productivity benefits. Dry-erase whiteboards allow people to work fast and collaboratively, but there is no way to easily share or save the board content outside the meeting room.

Kaptivo lets dry-erase whiteboards be seen beyond the conference room, easily integrating with any video conference system and any whiteboard already on the wall. Interactive whiteboard technology is clumsy and expensive, but Kaptivo is quick to install and effortless to use, making sharing and saving the whiteboard content simpler, easier and better.

Kaptivo works with any web browser, and all video conference platforms supporting screen sharing.

Invite anyone, anywhere to view your whiteboard in real time.

Automatically capture an image archive of all board changes.

Download and share the whole session as a multi-page presentation.

High Quality Images

The Kaptivo camera is easily installed and creates crisp, clean images for white boards up to 4ft by 6ft.
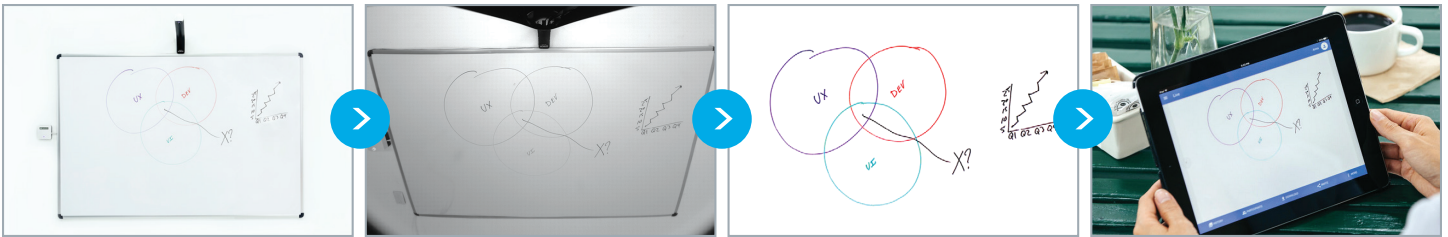

Intuitive Controls

The control pad directs new users to the online session portal with simple lighted calls to action.

Browser-Based Software

Share the live whiteboard image remotely to any web browser in real time.

How it works

- Proprietary integrated software uses unique video processing to identify and extract only important content.

- Removes board background, users writing on board, body parts getting in the way, reflections, and shadows.

- Determines changes to the board multiple times per second and grabs individual snapshots.

- Enhances ink and contrast for vibrant, clean images processed in real time, streamed online, and available for download and archive.

Kaptivo benefits

Simple Installation
- Wi-Fi connectivity
- Easily installed mounting bracket

Easy to Use
- Single button activation
- Automatic still image capture
- Browser-based interface
- No software install

Secure
- Meeting access approvals
- No media storage
- SSL data encryption

Kaptivo Specifications

Features	Value	In the box
